

Important update: Our warehouse is relocating to New Jersey

Dear Customer,

We are writing to let you know that our warehouse is relocating from New York to New Jersey. Our new facility should be fully operational on October, 1st, 2026, and we expect no interruption to your orders during this transition.

New address effective October 1st, 2026
CalibreScientific US, Inc.
202 Cottontail Ln
Somerset, NJ 08873

What this means for you:

- Orders placed before October 1st will ship from either our current warehouse if stock still exists, or the new location shown above once our stock is depleted in Rochester, NY.
- Starting October 1st, all shipments will originate from our New Jersey facility.
- If you have our warehouse address on file for returns or freight deliveries, please update your records ahead of October 1st.

We'll send a reminder as the date approaches, along with any updated shipping instructions.

If you have questions in the meantime, please reach out to either myself or our Customer Service at cs@dyna-labware.com or by telephone 800-334-2060.

Thank you for your continued partnership.

Regards,

Christine Leskovar

Distribution Account Manager, General Laboratory Supplies
CalibreScientific US, Inc. (Dynalon)
